Digital Fusion

Where Technology Meets Creativity

About KJSIM

- KJ Somaiya is a values, culture, and education institute that was founded in 1981.
- It is now ranked among the top 20 business schools in India. Around 900 students are enrolled in courses such as MCA, MBA, MMS, PGDM, and Part-Time Masters.
- The Institute has over 20 student-led committees that arrange events such as the Spiha-Pan India summer internship competition, the Global Marketing Conference, and the National Retail Summit.
- The university gives the opportunity to relieve the best years of college, again!

About ICON

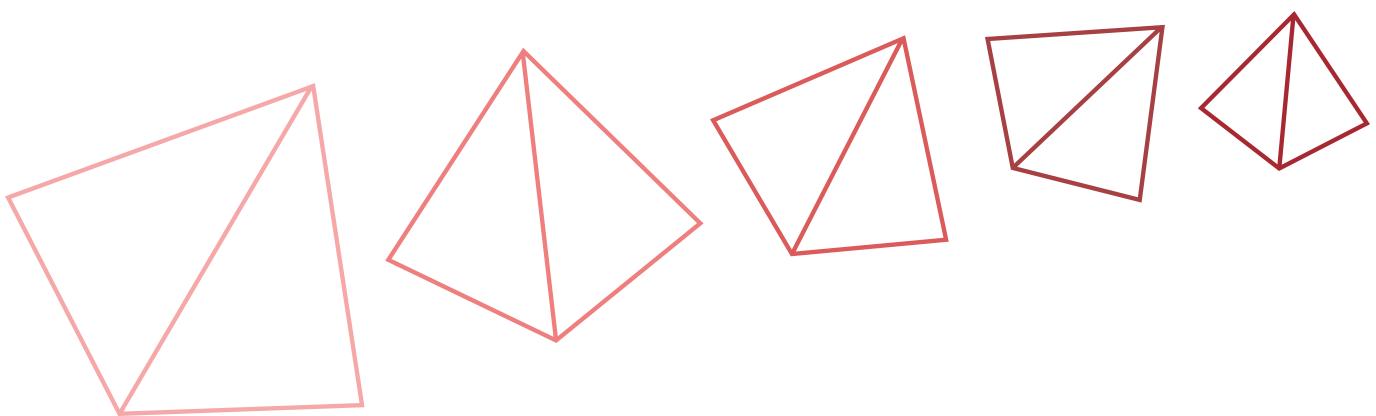

- ICON, MCA's most anticipated techno-management event, celebrates its 17th edition.
- The three-day festival includes 18 events that challenge both the intellect and the body through events/games.
- ICON aspires to access the potential of students from diverse colleges by providing them with a platform to demonstrate their talents.
- We welcome everyone to share in the fun, learning, and spectacular.

ICON '23 : Digital Fusion

- Digital Fusion, transforms the college tech fest into an inspiring, forward-thinking, and inclusive event.
- It encourages creativity, nurtures talent, and demonstrates the limitless possibilities when art and technology converge, creating a memorable experience for all participants and visitors.
- Icon 2023 introduces the theme Digital fusion: Where Technology Meets Creativity. It is the exciting intersection where technology and creativity come together to produce innovative and imaginative solutions across various fields, such as art, design, entertainment, and technology itself.
- This theme brings collaborative efforts that result in groundbreaking designs and inventions that enrich our lives.

- Tech Knowledge
- Code Fusion
- Digital Design Derby
- Spark Tank Challenge
- AD MAD Show
- Break the Query

CODEICON

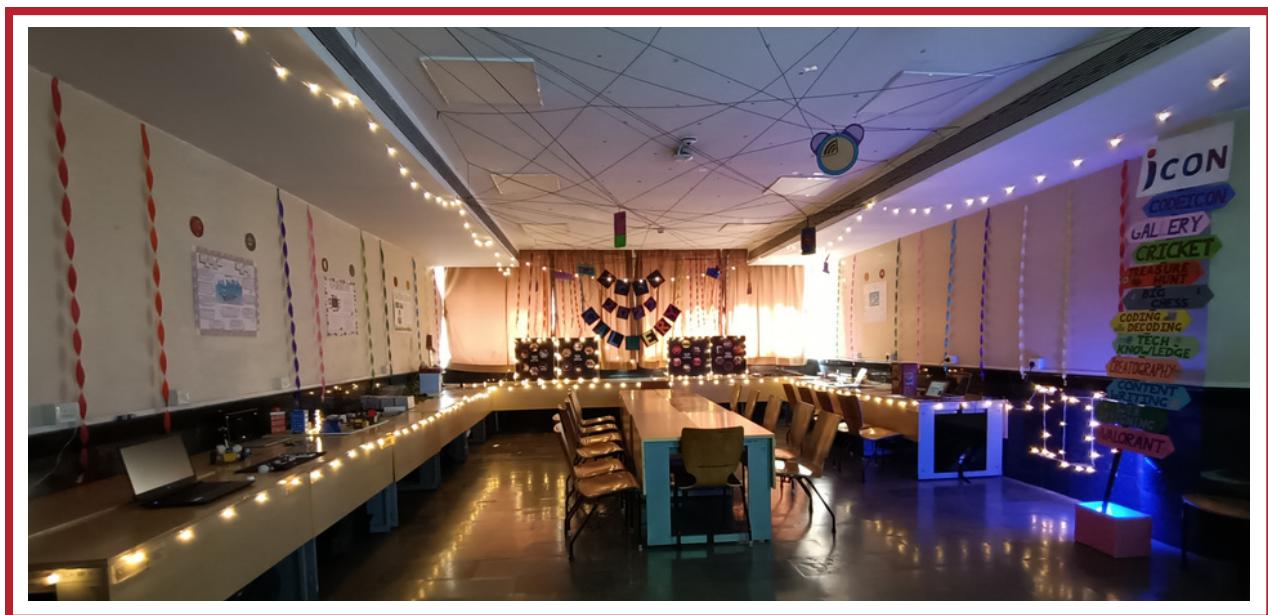

- Every success begins with the decision to attempt.
- A hackathon is a place where wild ideas are given life.
- Enabling possibilities and enhancing opportunities for people to deliver innovative solutions .
- Learn new skills and build things.

GALLERY

- The gallery will be set up and decorated with tech models and infographics demonstrating real-world depictions where technology meets creativity .
- Students from several colleges will be showcasing their projects to the audience in this Exhibition-cum-Competition.
- Visitors have the opportunity to vote for the project while checking out.
- The project or model that obtains the most votes wins some significant cash prizes.

TECH KNOWLEDGE

- A technical knowledge event is a competitive quiz-style competition where participants answer questions and solve problems related to various technical subjects to demonstrate their expertise and skills.
- "Tech Knowledge" is an engaging and interactive event designed to test participants' knowledge of technology through a variety of entertaining and challenging rounds.

CODE FUSION

- "Coding/Decoding" is an online coding competition where participants are challenged to solve a programming problem statement.
- In this event, participants have the flexibility to choose any programming language they prefer, as the problem statement remains the same for all.
- This competition tests participants' coding skills and problem-solving abilities, making it an inclusive and engaging technical challenge for programmers of all backgrounds and language preferences.

Digital Design Derby

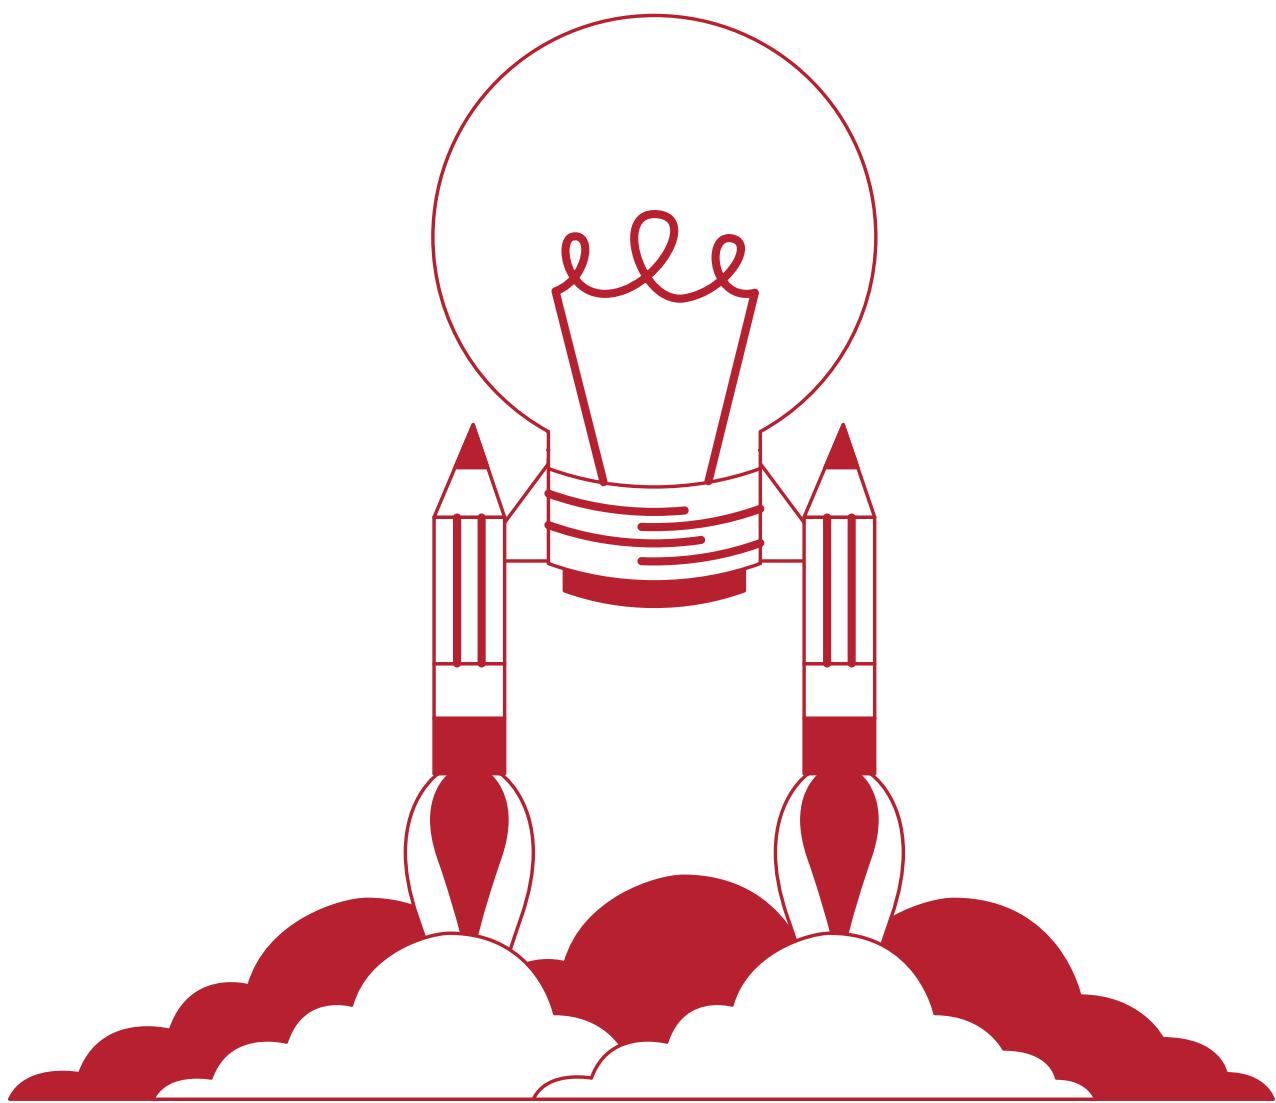

- "Prepare to unleash your creativity and design prowess in a thrilling challenge that doesn't require a single line of code!"
- Get ready to craft a captivating and innovative static website using the power of WordPress, all within a nail-biting two-hour time frame.
- But that's not all – the real excitement comes when you present your masterpiece for the ultimate showdown and judgment! Are you up for the challenge?"

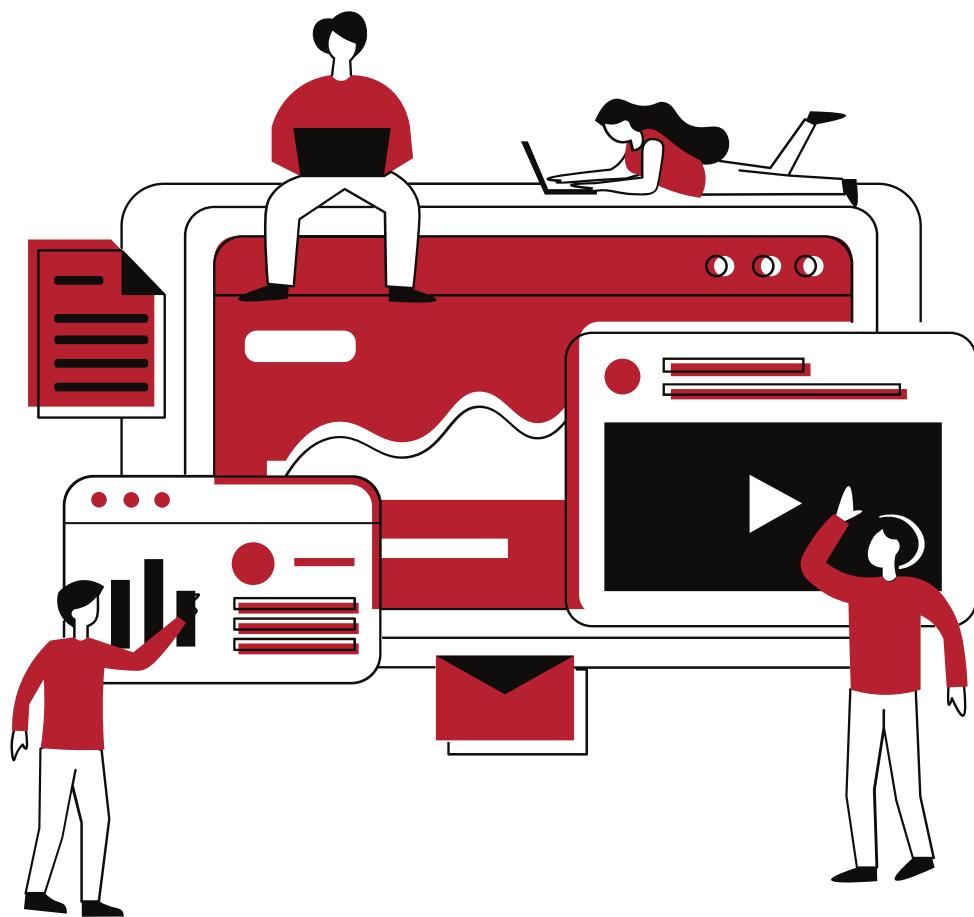

Spark Tank Challenge

- Introducing the Spark Tank Challenge: where the worlds of business and technology converge.
- This event provides a platform for students to showcase their innovative tech business ideas and present compelling start-up pitches.
- It's the perfect arena where entrepreneurial spirit and technological innovation unite, fostering an environment of creativity and forward-thinking.

AD MAD Show

- The Ad Mad Show is a standout event with a strong focus on technology.
- Here, students are tasked with advertising various products using their technological prowess to craft compelling static web pages.
- This unique challenge not only sharpens their marketing skills but also highlights the power of combining technology with other domains.
- It's a platform where students can harness the potential of technology to create impactful advertisements, showcasing how innovation and marketing can seamlessly intersect.

Break The Query

- 'Break the Query' is a competition focusing on Database Management System expertise.
- Students tackle questions and scenarios, honing their SQL query skills to retrieve specific data.
- It's a dynamic platform for enhancing database proficiency and real-world problem-solving.
